

A close-up photograph of a diver's torso and legs. The diver is wearing a black wetsuit with "EVOKE" printed on the upper leg. They are holding a black Atomic Aquatics BCD (Buoyancy Control Device) with red accents. The BCD has "ATOMIC AQUATICS" printed on it. A black Atomic Aquatics bag is also visible, featuring the brand name and a red stripe. The background is a blurred outdoor setting.

AQUATICS

BC2

BACK
TO THE FUTURE.

**THE BACK INFLATION BC.
AHEAD OF ITS TIME.**

BC2 is a radical new design from Atomic Aquatics for divers who want the **toughest back inflation bc** in the world.

**DOUBLE-LAMINATED
COATED FABRIC**

**RATCHETING CAM-LOK
TANK BAND**

**PATENTED EZ-LOK
WEIGHT SYSTEM**

AtomicAquatics.com

BC2

The BC2 is engineered using the same unique materials and patented Atomic Aquatics features as BC1, including the EZ-LOK integrated weight system and CAM-LOK ratcheting tank band.

Exclusive Laminated & Coated Waterproof Fabric: The custom matte finish fabric looks and feels unlike any other BC. The strong double-laminated polyurethane coated fabric is incredibly tough and actually SHEDS water.

Ratcheting CAM-LOK Tank Band: This Atomic design exclusive is the easiest tank band to use, working much like snowboard bindings. No more webbing to weave in a buckle. Every aspect of the Atomic BC2 is designed to be exclusive— even the manufacturing involves a custom hand-crafted sewing process and custom binding tape. More design features...

- Rear inflation bladder provides up to 58 lbs lift
- QLR4 Integrated Weight System
- 20 lbs plus dual 5 lbs rear Generous zippered utility pockets with knife mounts
- Pre-bent welded stainless steel D-rings
- Patented adjustable depth compensating cummerbund
- Streamlined harness with reinforced contoured shoulders
- Padded backpack with lumbar support

BC2 - WITHOUT INFLATOR

Includes two accessory pockets.

TFX

TITANIUM FRONT EXHAUST

IT'S ALL ABOUT ATTITUDE

NATURAL BREATHING IN ALL DIVING POSITIONS.

The **TFX** is the “connoisseurs” regulator with the most sophisticated and effortless air delivery ever. The groundbreaking Titanium Front Exhaust design dramatically reduces inhalation effort in all diving attitudes and positions. Fresh case architecture integrates elegantly sweeping exhaust deflectors routing exhaust from the front of the regulator to the rear with superior bubble management.

ATOMIC
AQUATICS

www.atomicaquatics.com

RADICAL NEW DESIGN WITH ELITE MATERIALS

All Titanium metal components.
3-year/300-dive lifetime warranty.

NEW 4X YOKE SCREW FIRST STAGE DESIGN

Secure or remove the first stage
with just one turn of the knob.

PATENTED TITANIUM COMFORT SWIVEL HOSE

Just one of many exclusive Atomic
Aquatics signature **TFX** features.

ELEVATING THE DIVING EXPERIENCE

TFX

- First stage components are precision-machined from solid Titanium alloy bar
- Unique 4X Yoke design – tighten or remove from tank with one turn
- Minimalist yoke design is optimized to use the least amount of material for the lightest weight possible
- Atomic Aquatics exclusive balanced Jet Seat high-flow piston
- Freeze-protected and factory-sealed to prevent outside contamination from silt and sand
- Nitrox ready – approved for non-dedicated EAN use with mixtures up to 40%
- Ports: 2 HP fixed / 5 LP on swivel cap
- Fresh take on front exhaust design with exhaust valve and inhalation diaphragm both mounted in the front center of the regulator
- Bold narrow-width case architecture with fluid lines and sweeping flexible front purge cover that integrates seamlessly with exhaust deflectors
- Variable Lift Cam with near frictionless action lever increases lift at high demands to provide high flow with low inhalation effort
- Atomic Titanium Seat Saving Dynamic Orifice automatically retracts away from the seat when not under air pressure to extend service life, maintain crisp like-new performance and prevent damage during storage
- Adjustable venturi nozzle gear-driven tuning with soft-touch lever
- Low-friction cap at the cam surface
- Coaxial diaphragm and exhaust valve for 360° breathing effect
- Atomic exclusive patented all-Titanium Comfort Swivel hose now with less friction and smoother movement
- Uniquely designed extended silicone exhaust tee with a sweeping flexible front purge cover and soft rubber exhaust deflectors that route the exhaust away from and behind the divers field of view
- Dual silicone comfort fit mouthpiece with tear-resistant bite tabs – both comfortable and durable
- Deluxe padded travel bag

T3

- First stage components are precision-machined from solid bar Titanium that is lightweight and corrosion-free
- Atomic Jet Seat high-flow piston first stage
- Freeze protected factory-sealed first stage also prevents contamination such as silt and sand
- T3 is approved for non-dedicated EAN use with mixtures up to 40%
- Patented Atomic "Seat Saving" Orifice (Titanium)
- Patented Atomic Automatic Flow Control (AFC)
- Soft overmolded Rapid adjustment knob for manual second stage de-tuning in special situations
- All-Titanium Atomic Comfort Swivel standard on all T3 regulators with Black PVD coating
- High-flow second stage case and magnum lever design that significantly lowers breathing effort at any depth from shallow water to beyond the limits
- Dual material second stage cover enables entire front to be used for purge

ATOMIC
AQUATICS

FOCUSED ON FIT

VENOM ARC

ARC Lens Technology elevates UltraClear to a higher level Atomic Aquatics developed ARC (Anti-Reflective Coating) technology to reduce reflected light and actually increase the amount of available light transmitted to a diver's eyes. Anti-Reflective Coatings or "ARC" is a multi-layer metal oxide coating process applied to both sides of the UltraClear lenses. The result is a greatly improved 98% light transmission.

SKU	DESCRIPTION	BASLINE	TRADE	DEALER	PARTNER	MSRP
04-0250-00	Venom Arc Mask Black	404.39	274.98	247.49	240.61	449.95

VENOM FRAMELESS

The Atomic Venom Frameless Mask co-molded with two silicone materials in two levels of softness. Exclusive UltraSoft silicone in an accent color is incredibly comfortable. A more rigid silicone black skirt keeps the mask firmly positioned in even the most turbulent conditions. Popular Atomic UltraClear lens completes the package to make this the finest mask to ever see the light of day...or the darkness of the fathoms.

SKU	DESCRIPTION	BASLINE	TRADE	DEALER	PARTNER	MSRP
04-0160-00	Venom Frameless Mask Black	305.53	207.76	186.98	181.79	349.95
14-0055-3P	Venom Frameless Mask Red	305.53	207.76	186.98	181.79	349.95

SUBFRAME

The Atomic Aquatics SubFrame Mask is so durable, it carries a Lifetime Warranty against frame breakage. The strength comes from the internal frame (sub frame) molded directly beneath the surface of the silicone rubber skirt (patented). The subframe provides incredible strength and rigidity as well as eliminating the bulky external plastic frame in other masks. A stainless steel retainer locks the lenses in place and provides added strength to the nose bridge area of the mask. A wide field of view and great fit completes the combination of function, style and durability.

SKU	DESCRIPTION	BASLINE	TRADE	DEALER	PARTNER	MSRP
04-0135-00	SubFrame Mask - Black/Red	209.04	142.15	127.93	124.38	259.95

FRAMELESS

The Atomic Aquatics Frameless Mask is focused on fit, comfort and a wide field of vision. The large lens and close fitting skirt work in harmony to create perhaps the widest viewing angle of any frameless mask design. The lens shape was computer designed to maximize upward, downward and side to side vision. Because an external frame is not needed, the viewable area of the lens is optimized. Squeeze-to-adjust buckles are tucked behind the lens for a sleek hydrodynamic design.

SKU	DESCRIPTION	BASLINE	TRADE	DEALER	PARTNER	MSRP
04-0530-00	Frameless Mask Black	195.19	132.73	119.46	116.14	229.95

MASK STRAP

This Atomic Aquatics standard silicone rubber mask strap is universal, and will fit all Atomic aquatic dive masks. A wide split strap design with extended rubber tabs on each end to secure strap in buckle mechanism for positive retention. Easy to install, don't let a bad mask strap be the cause of an aborted dive, always carry a spare!

SKU	DESCRIPTION	BASLINE	TRADE	DEALER	PARTNER	MSRP

SV2 FLEX

The SV2 combines the Scupper valve lower section with the sleek looking SV2 semi-dry top. The SV2 Semi-Dry top horizontal vents diffuse splashed water that would normally freely enter the snorkel top. Features include: easy on/off snorkel clip system, flexible drop away hose, a dual silicone mouthpiece and rotational mouthpiece with ratchet indicators.

- Posi-lock flex retainer secures flex section and mouthpiece
- Dual silicone mouthpiece prevents over-clenching of teeth that would restrict air flow
- Rotational mouthpiece with ratchet indicators
- Semi-dry top is designed to limit splashed water from entering the breathing tube

SPLITFIN

A fin with short, soft blades will kick easier than a longer, stiffer one, but will require many more kicks to travel the same distance. A blade that is too stiff will require too much effort to kick comfortably. The Atomic SplitFins were specifically designed to optimize all these variables. They are easy kicking fins that deliver high thrust, speed, and efficiency with a comfortable, low frequency kick cycle. The SplitFin Smoke comes with spring heel strap.
