APEX LI

Extreme adventure headlamp. A rechargeable headlamp that will take durability and power to the next level on your adventures, the Princeton Tec Apex Li is rated IPX7 water resistant and provides both a powerful spot beam and a bright flood light. Operated with two large buttons that make switching between modes quick and intuitive, the light offers 550 lumens and runs for upwards of 13 hours. The rechargeable lithium ion battery pack comes clipped to the head strap and can be moved to your belt, pack, or jacket with an extended power cable for optimized comfort and incredible cold weather headlamp performance.

SNAP 450 RW

Adaptable all-in-one headlamp, handheld, and area light. This unique design features a magnetic head unit that can be easily and intuitively detached and reattached to its base, empowering it to become the ultimate multi-use light. The Princeton Tec Snap can be worn as a traditional headlamp, used as a handheld flashlight, or attached to any metal surface to serve as an area light around your workspace. Snap is now brighter than ever at 450 lumens and features three modes: a fully dimmable white light spot beam, a flash mode, and a red LED to preserve night vision.

VIZZ 550

Built-to-last waterproof headlamp. This light is both bright and durable, combining the reliability of a heavy-duty waterproof headlamp with a remarkable 550 lumens. The Princeton Tec Vizz 550 features three modes: a powerful spot beam, a flood beam provided by a pair of white LEDs, and two red LEDs for close-up use while preserving night vision. Designed to withstand the harshest conditions and Rated IPX7, Vizz 550 is submersible up to one meter. This headlamp's digital lockout prevents accidental activation, barring the risk of battery drain.

SYNC

Dial-activated headlamp. Extremely glove friendly and intuitively used, the Princeton Tec Sync is operated via dial-activation. This headlamp bypasses button pressing sequences by turning the dial to switch between modes quickly and simply and eliminates the need to remove gloves. This light offers three modes, including a red beam for preserving night vision and a dual white mode for an even stronger light output that combines both its flood and spot beams.

REFUEL 300

Everyday-use headlamp. Known for its simplicity and user-friendliness, the Princeton Tec Refuel features only one mode, a dimmable white flood beam. At 300 lumens, this headlamp is easily and intuitively activated, deactivated, and dimmed with a single large, easy-to-find button, and with its asymmetrical single arm bracket, the headlamp is effortlessly positioned to direct light wherever needed. Refuel also has an extremely easy-open battery door, making battery swaps easier than ever.

BYTE

Compact lightweight headlamp. The smallest and lightest of our headlamps weighs in at just 2.25 oz., the Princeton Tec Byte is ideal for minimal pack space and weight. The light provides four modes, including high and low white spot beams, as well as high and low red beams for preserving night vision. Lastly, to complement its compact design, this headlamp is equipped with a sleek 3/4 inch strap.
